

BARNES PGPP GRINDER PUMP

PGPP Advantages

- Large pump end bearing and short impeller overhang significantly extend mechanical seal life by minimizing shaft deflection
- Removable discharge flange for easier installation
- Heavy 2hp motor is standard

BARNES®

We are currently stocking this product!

Exclusive Slicerator

- Staggered slicing action reduces torque requirements of the motor
- Cuts with less horsepower and increases the unit's efficiency
- Helps prevent clogging of objects such as plastics and rubber.

PGPP Grinders Offer

- Low initial costs
- Low life cycle cost
- Trouble free operation
